

FUELCUBE 900

### FUELCUBE 900

900 litre (197 gallon) static bunded fuel tank. Ideal for small plant and machinery, groundcare equipment, generators and traffic control equipment. The Fuelcube 900L is designed and manufactured in accordance with current environmental regulations, has a capacity of 900 litres (197 gallons) and is constructed from steel throughout. Features include a lockable door that opens with a gas strut, a high-flow hand operated pump and 3m hose with manual trigger. The Fuelcube is stackable and can be lifted full of fuel using the lifting eyes. Generator flow and return pipes are fitted as standard.

### FEATURES

- 110% bunded in accordance with environmental regulations
- Heavy duty construction using steel throughout
- Compact & stackable design
- Forklift pockets and 4 x galvanised lifting eyes for easy lifting and moving
- Pressure tested inner tank
- Lockable lid housing tank connections and dispensing equipment
- Concealed hinges for added security
- Lid features gas strut opening for easy access
- Shot blasted to SA 2.5 and painted in 2-pack polyurethane finish
